SUMMARY

Computer Science & Engineering undergraduate specializing in **Data Science**, with hands-on experience building **machine learning** and **Generative AI** applications. Worked on **RAG-based systems**, **LLM workflows**, and **AI automation pipelines** using **Python**, **FastAPI**, **LangChain**, and **PyTorch**. Currently expanding expertise in **MLOps** and **scalable AI system design** through open-source projects and internship experience.

EDUCATION

GANDHI INSTITUTE OF ENGINEERING AND TECHNOLOGY

Bachelor of Technology in Computer Science & Engineering (Data Science)
Cumulative Grade Point Average

Gunupur, Odisha
Expected April 2027
CGPA: 7.11/10

SKILLS

Programming: Python, C++, JavaScript, SQL, R | **Cloud:** AWS, Azure
AI/ML: Scikit-learn, PyTorch, TensorFlow, YOLO, Hugging Face Transformers
LLM & GenAI: LangChain, LangGraph, LangSmith, RAG, MCP, LoRA, Fine-tuning
Databases: MySQL, PostgreSQL, MongoDB, Supabase, Chroma, Pinecone
Tools & Frameworks: FastAPI, Docker, MLflow, PySpark, Apache Airflow, Git/GitHub, Bash/Shell, Excel

WORK EXPERIENCE

Bisy Group

AI Engineering Intern — RAG + Prompt Engineering + AI System Design

Remote/Hyderabad
May 2025 – Nov 2025

- Built and deployed a **RAG-based AI assistant** using FastAPI, LangChain, and LangGraph, reducing manual work by **70%** (10+ hours/week).
- Developed **LLM-powered workflows** with custom tools, prompts, and structured outputs, while improving response accuracy through retrieval and embedding optimization.
- Created scalable automation solutions using FastAPI, Azure Blob Storage, and PySpark, processing **5K+ records** and supporting **60+ workflows per week**.

Open-Source Contributions

GirlScript Summer of Code (GSSoC) — Nyay Setu

[GitHub] — May 2026

- Engineered and integrated a modular **Modi Script OCR pipeline** using **FastAPI**, OpenCV, Hugging Face TrOCR, and PyTorch for historical legal document digitization and Devanagari transliteration.
- Built production-ready **backend APIs** featuring **asynchronous inference**, image preprocessing, validation handling, and scalable architecture integration within an AI-powered legal assistance platform.

PROJECTS

Ask-HR — Python, LangGraph, FastAPI, LangChain, ChromaDB, Human-in-the-Loop

[GitHub]

- Built an **agentic HR assistant** using **LangGraph** and **Retrieval-Augmented Generation (RAG)** to answer employee queries from HR policies and company documents, with a **Human-in-the-Loop** workflow that escalates sensitive requests to HR for review and approval
- Developed a **FastAPI backend** with **vector search**, persistent conversation state, and modular agent workflows, enabling **context-aware responses**, enterprise-ready HR automation, and reduced manual HR effort

Type 2 Diabetes Prediction & Root Cause Analysis (ML + XAI) — Python, Scikit-learn, SHAP/LIME [Colab]

- Built an end-to-end **ML pipeline** on **27K+ patient records** with domain-driven feature engineering (**HOMA-IR**, **TyG Index**), training **Random Forest**, and **XGBoost** (Optuna-tuned), achieving **92.7% accuracy**, **0.925 F1**, and **0.942 ROC-AUC**
- Performed **SMOTE vs original dataset** comparative experiments and integrated **SHAP/LIME** to surface key biomarkers and lifestyle factors influencing diabetes risk

PUBLICATIONS

Deep Sentiment Analysis of Indian Political Discourse Using BERT — ICAIET 3.0 (AISUMMIT-2026) [IEEE]

ACTIVITIES

Data Science Lead (Google Developer Group on Campus) | **Technical Head** (Data Science Club - DSC) | **Technical Core Member** (AI/ML Club)

Research & Development: Student Association of Robotic Science (SARS) | **Sport:** University Chess Player & Mentor

ADDITIONAL DETAILS & CERTIFICATIONS

Profiles & Languages: LeetCode: 120+ Solved | English, Hindi, Spanish (Beginner)

Achievements & Leadership: 3rd in WaterTech Hackathon (GIET) | 6th in Learnathon (GIET) | 3rd in Micro-mouse at Technex (IIT BHU) | Delivered Workshops: Generative AI, Database 101, BuildwithAI | Techsprint Mentor

Certifications: Intro to Data Science (Cisco), ML for Data Science (IBM), Generative AI (Databricks), OCI AI Foundation, OCI Data Science Professional (Oracle), R Language, C++ Programming, Deep Learning (NPTEL), RAG (MongoDB), Project Management (Udemy)

Job Simulations: Quantitative Research (JP Morgan), Data Analytics & Visualization (Accenture)
